Engineering Talent in Every County (E-TEC) Scholarship

The Iowa State University College of Engineering is offering a \$500 E-TEC scholarship to high school seniors and transfer students from across Iowa who have declared engineering as their program of study at Iowa State. Approximately 70 E-TEC scholarships will be awarded each year.

Students must be Iowa residents, U.S. citizens, and demonstrate potential to succeed to be eligible. They must also complete the E-TEC online application, which includes a creative component. The creative component asks student to use the medium of their choice to create an artifact (product) to illustrate an engineering challenge that they see in your community, county, state, nation, and/or world and explain how they might work as an engineer in the future to address this challenge. These artifacts will build upon Iowa State University College of Engineering's 2050 Challenge initiative and may be used by the college to further promote this initiative. For more information about the 2050 Challenge go to:

- www.engineering.iastate.edu/the-2050-challenge.html
- <http://www.engineeringchallenges.org/>
- <http://www.eng.iastate.edu/discovery/>

The deadline for submitting the online application is **March 15**. The application, along with complete details about the scholarship and application process can be found at <http://www.engineering.iastate.edu/etec.html>.
